PUBLIC EVENTS

◆ SPORTING EVENTS

For many years now we have been the lead supplier of floating swim platforms and temporary slipways for world class triathlons and various open water swim series. We supplied and installed 1100m² of modular pontoon for the 2012 Olympic Triathlon event in Hyde Park.

◆ PRIVATE EVENTS

We fully understand the needs of individuals when arranging weddings and parties and reduce the stress of your event by managing all of the marine activities. We can build fully floating stages, marquees and bars. We offer a range of surfaces for the floating marine pontoon from ply and green baize through to a fully decked platform.

◆ BESPOKE SERVICES

We design and create tailored components for moorings, gangways and coverings. From engineers to artists and film crews' ideas we love a new creative challenge. Not only can we design fittings for the pontoons but the versatility of our modular system means that we can work around all sorts of obstacles and in a variety of water environments.
